

North Central Orchestras

2011-2012

PRIVATE LESSONS

Private lessons are not required but are strongly encouraged due to their obvious value to the student and his/her musical growth. It is the student's responsibility to take private lessons if at all possible. Attention to details particular to your instrument and to *your* specific needs cannot be effectively addressed in a large ensemble. The quality of the school orchestra program therefore is reliant on the musical growth of its members. In fact, the need for individual instruction/tutorage/mentoring is even greater as a student advances. In any fine musical organization, the majority of students study privately. **At North Central, 99% of Symphony Orchestra students are enrolled in private lesson.**
